WELCOME!

By the time you get this Summer catalog, the 1997 aggressive season will be well under way. Between the ASA and NISS tours, there will be over 24 aggressive competitions televised on ESPN and FoxSports. That's not even counting the hundreds of regional amateur events throughout the country. Can you believe how far this sport has come?

At Team Paradise, sometimes we pull out the old Daily Breads to look back at where this sport came from. It's hard to believe that it was only three or four years ago when people hardly knew who Arlo, Angie or Chris Edwards were, Mark Heineken still skated and aggressive skating didn't even have a name.

When we first started in this sport in 1991, at our little shop under the Huntington Beach pier, people thought we were crazy. But we saw things differently. We saw a sport that you could really be passionate about. A sport about independence and challenging yourself. And now, six years later, aggressive skating is the fastest growing sport in the world.

Although we've grown (faster than we ever could have imagined) along with the sport, one thing hasn't changed. Our goal is still to bring you the highest quality, largest and most innovative selection of aggressive skate products in the world from companies who are committed to aggressive skating.

We think we've got everything you need for aggressive skating. All you need to do is keep pushing yourself, be unique and carve out your own style. If there is something that you want but don't see in this catalog, just ask, because we probably have it, or can get it for you.

We look forward to seeing you in person this summer at one of the ASA, NISS and IISS tour stops around the world. Look for our bright yellow TP booth. Make sure you stop by and say hello.

THE REVOLUTION CONTINUES!

You'll never need grind plates again. You actually replace these pro-grooved frames when they wear out. Once the mounting plates that come with your first Frame Starter Kit are riveted to your existing boots, you can easily replace the frames in a matter of minutes, just like you replace a grind plate! Additional frames and hardware are available separately.
Please note: when you purchase your first Frame Starter Kit, you will have to remove your current frames from your skates with a riveter and rivet your new Senate mounting plates to your boots. Team Paradise can do this for you for an additional $29.95 including return shipping via UPS Ground service or $39.95 via 2 day delivery. Please remove all wheels and hardware before sending us your skates. Designed for skate sizes 6 1/2-9 1/2.

This is information that you need to find out what cdsdetroit grindplate would be best for you and your specific style of skating. cdsdetroit grindplates come in eight different plastics, three different sizes 1/4", 3/8", and 1/2" and now, three different styles, cause we all dont skate on the same skate, but now we can skate the same plates.

thestandard ★ ★ ★

the standard plates, are the cdsdetroit grindplates you have always depended on, using eight different plastics & three different thickness.

thenotchback ★ ★ ★

the notchback is the same plastic and size as the cdsdetroit standard plate, but with a notch taken out of the back, so they fit on Argon frames.

thelongeasy ★ ★ ★

the longeasy, like the notchback, is still the same standard plate, but a little longer. This is done so it will fit on Razors & other split system frames.

ISOSCELES STORAGE SYSTEM®

Side pockets hold skates and boots. A roomy central compartment holds everything else.

PATENTED

These revolutionary, all-terrain backpacks have quickly become popular packs for in-line skaters worldwide. Their key element is the patented ISOSCELES STORAGE SYSTEM™ which utilizes two large side pockets surrounding a large triangular central compartment. This unique geometry allows the weight of your skates to be diverted to your sides, reducing the stress on your back.

1. Pro
The ultimate sport pack. Features a new ventilation system with mesh portholes, additional mesh side pockets and 3M Scotchlite™ reflective tape for added visibility. Constructed of rugged PVC coated Denier nylon, industrial strength buckles and a cool mesh padded back. Inside the lid is a covered mesh pocket for storing socks, tools and accessories. Includes a spring loaded chain hook to attach your keys and a limited lifetime warranty.
Colors: Black/White, Black/Yellow **RBPR04 $69.95**

2. Mesh
Great for allowing your skates to dry out without sacrificing durability. Includes a small, concealed zippered compartment for your valuables and a web loop to attach your helmet. Colors: Black, Blue Red, Silver
TRBPR02 $39.95

3. Sport
Constructed of rugged PVC coated 840 Denier nylon, the Sport features reflective thread on its side, an external zippered compartment for accessories and riveted air holes.

Welcome!

Summer is finally here!
It's time to get out and skate!!!

In-line skating broke into the LA Marathon this year. USA Hockey Inline is nearly 80,000 members strong after combining forces with NIHA. And the IISA is successfully battling for trail rights for in-line nuts out in big bad Washington, D.C. It's in-line mayhem!! We're distinctly out of control!

So, let the summertime sun feed your in-line addiction. If you're as fanatical about this sport as we are, whether you're cruising along the bike path at the beach, getting in some pick-up roller hockey or competing in a 10K race with a pair of five wheelers, you know that great feeling of rolling under the sun that you were longing for all winter long.

We've found hundreds of new, quality skate products this season. New technology, new concepts and new looks, all to make your skating life as complete as possible. So sit-down, relax, take a long look at the largest selection of skate gear in the world, and enjoy. If there's something you want, but don't see, ask. Because chances are, we either have it or can get it for you. We'd love to hear from you with any suggestions you may have about how we can improve our selection or service. So give me a call or send me an e-mail.

Blademan

P.S.

Contact me at www.teamparadise.com for answers to your questions, comments or Team Paradise news. Look for specials, coupons to download, photos and new product information.

PLEASE REMEMBER TO SKATE SAFE
Always wear protective gear including wristguards, knee pads, elbow pads and a helmet.
Respect the rules of the road. And don't forget that we're all one people living in one world, so have fun and stay cool.

Untouchable.

In fact, no one else even comes close. You see at BAUER, we've spent the past 67 years doing one thing, and doing it right. You'll know the first time you lace up a pair of our skates and stop everyone else dead in their tracks. It's simple.

We have to keep up with your imagination. After all, if we're untouchable, so are you.
